

Section 1 – Product and Company Identification

Manufacturer Information

Quansys Biosciences	Phone: (435) 752-0531	Web: www.quansysbio.com
365 North 600 West	Fax: (435) 750-6869	Email: info@quansysbio.com
Logan, UT 84321	Emergency: 1-800-535-5053	

Product Information

Product Name: Enzyme-Linked Immunosorbent Assay (ELISA) Kits

Suggested Use: The kits are for Research Use Only and not for use in diagnostic procedures.

Components: Arrayed microplate, Multiplexed Calibrators, Controls, Detection Mix, Wash Buffer Concentrate 20x, Streptavidin-HRP, Substrate A, and Substrate B

Section 2 – Hazards Identification

Classification of Substance or Mixture

Substance	OSHA Hazards	Target Organs	Description
Sample Diluent	Irritant	Skin	Skin Sensitizer (Category 1)
Detection Mix	Irritant	Skin	Skin Sensitizer (Category 1)

GHS Label Elements, Including Precautionary Statements

Component	Pictogram	Hazard Statements	Precautionary Statements
Sample Diluent Detection Mix	 Warning	H317 May cause an allergic skin reaction.	P264 Wash hands thoroughly after handling. P303+P361+P353: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. P333+P313: If skin irritation or rash occurs: Get medical attention.
Supplemental Hazard Statements		1. Follow Universal Precautions when working with this kit. Refer to additional Universal Precaution information in Section 7, Handling and Storage. 2. Avoid release to the environment. 3. Sodium azide (<0.1%) used as a preservative in the Sample Diluent. 4. Prevent the components listed above from entering drains.	

Section 3 – Composition / Information on Ingredients

Composition/Information on Ingredients

Component	Chemical Name	CAS #	EC-No.	Conc. (%)
1. Sample Diluent 2. Detection Mix	Mixture: 5-Chloro-2-methyl-2, 3-dihydroisothiazol-3-one; 2-Methyl-2,3-dihydroisothiazol-3-one	55965-84-9	911-418-6	<0.001

Section 4 – First Aid Measures

Description of First Aid Measures

Move out of exposure area. Consult a medical professional.

Inhalation:	Move the person to fresh air and support breathing as required.
Skin contact:	Wash affected area with soap and water. Seek medical advice if irritation develops.
Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.
Ingestion:	Rinse mouth with water and drink 1 to 2 glasses of water. Never give anything by mouth to an unconscious person. Seek medical advice if irritation develops.
Note to Physicians:	Treat symptomatically.

Most Important Symptoms and Effects (both acute and delayed)

Not applicable.

Indication of Any Immediate Medical Attention and Special Treatment Needed

None.

Section 5 – Fire Fighting Measures

Only individuals properly trained and issued appropriate personal protective equipment should respond and attempt to extinguish a fire.

Extinguishing Media

For small fires, use dry chemical, water spray, carbon dioxide or alcohol-resistant foam.

General Fire Hazards

The components within this kit will not significantly contribute to the intensity of a fire.

Hazardous Combustion Products

No data available

Fire Fighting Equipment

Firefighters should wear full protective gear when responding to fires.

Section 6 – Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Use personal protective equipment, including protective gloves and safety glasses when cleaning up small spills of the solutions, controls or reagents within this kit. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Keep all unnecessary personnel away from the spill area.

Methods and Materials for Clean-Up

Wipe up with inert absorbent material (e.g., paper towel, etc.). Thoroughly wash the area with soap and water after a spill or release.

Environmental Precautions

Contain spill to prevent migration to drains, sewers or open water sources. Discharge into the environment must be avoided.

Reference to Other Sections

See section 8 for more information.

Section 7 – Handling and Storage

Specific Use

Refer to product specific Package Insert. Not for use by the general public.

Precautions for Safe Handling

As with all chemical and biological substances, avoid getting the components within this kit ON YOU or IN YOU. Wash exposed areas thoroughly after using this kit. Do not eat or drink while using this kit. This kit should be handled only by qualified clinical or laboratory employees trained on the use of this kit and who are familiar with the potential hazards. Universal Precautions should be followed when handling and working with this kit.

Universal Precautions

No known test method can offer complete assurance that product(s) derived from human blood, serum or plasma used in components of this kit will not transmit infectious agents. All blood or other human/animal derived products should be treated as potentially infectious; use universal precautions. Users should ensure the use of proper personal protective equipment (PPE), covering of any cuts or abrasions on the skin (hands), and follow standard protocols for the decontamination of work surfaces when testing has been completed. Always wash hands thoroughly after handling the components within this kit.

Conditions for Safe Storage

To maintain efficacy, store according to the kit specific Package Insert instructions.

Incompatibilities

Incompatible with strong acids and bases. Incompatible with oxidizing agents.

Section 8 – Exposure Controls and Personal Protection

Exposure Limits

No data available for the specific components within this kit.

Exposure Controls:

Engineering Measures

Use with adequate ventilation.

Personal Protective Equipment

Respiratory Protection:

None needed under normal conditions of use.

Hand Protection:

Handle with appropriately rated chemical resistant gloves. Gloves should be inspected prior to use. Use proper glove technique to remove gloves to avoid contact with skin. Wash hands after handling the components within this kit.

<i>Eye Protection:</i>	Wear safety glasses with side shields or goggles to prevent eye contact.
<i>Skin and Body Protection:</i>	Use body protection appropriate for the task. A laboratory coat is recommended.
<i>Hygiene Measures:</i>	Wash hands before and after use. Handle in accordance with good industrial hygiene and safety practice.

Environmental Exposure Controls

No special environmental controls are required.

Section 9 – Physical and Chemical Properties

Characteristic	Sample Diluent	Detection Mix
Appearance	Clear, colorless to light straw-colored liquid	Clear, colorless liquid
Odor	Odorless	Odorless
pH	7.3	7.3
Specific Gravity	No data available	No data available
Boiling Point	No data available	No data available
Melting point/Freezing point	No data available	No data available
Flash Point	No data available	No data available
Evaporation Rate	No data available	No data available
Vapor pressure	No data available	No data available
Vapor density	No data available	No data available
Solubility in water	Soluble	Soluble

Section 10 – Stability and Reactivity

Characteristic	Sample Diluent	Detection Mix

Reactivity	Not reactive under normal conditions	Not reactive under normal conditions
Chemical Stability	Stable under recommended storage conditions	Stable under recommended storage conditions
Possibility of Hazardous Reaction	No data available	No data available
Conditions to Avoid	No data available	No data available
Incompatible Materials	No data available	No data available
Hazardous Decomposition Products	No data available	No data available

Section 11 – Toxicological Information

Information on Toxicological Effects

Sample Diluent and Detection Mix

Component Analysis – LD50 / LC50 / Irritation (No data available for specific kit components)

Chemical Name	CAS #	RTECS #	Information
Mixture: 5-Chloro-2-methyl-2, 3-dihydroisothiazol-3-one; 2-Methyl-2, 3-dihydroisothiazol-3-one	55965-84-9	Not available	Oral LD ₅₀ Rat 53 mg/kg Inhalation LC ₅₀ No data available Dermal LD ₅₀ No data available

- Acute Toxicity No data available
- Skin Corrosion/ Irritation No data available
- Serious Eye Damage / Irritation: No data available
- Respiratory or Skin Sensitization No data available
- Generative Cell Mutagenicity No data available
- Carcinogenicity No component of this kit is present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by the ACGIH, NTP or OSHA.
- Reproductive Toxicity No data available
- Teratogenicity No data available
- Specified Target Organ Toxicity
 - Single Exposure (GHS):* No data available
 - Repeated Exposure (GHS):* No data available

Section 11 – Toxicological Information (cont'd)

Potential Health Effects

- Inhalation* May cause respiratory tract irritation.
- Ingestion* May be harmful if swallowed.
- Skin* May cause skin irritation upon contact.
- Eyes* May cause serious eye irritation.

Aspiration Respiratory Organs Hazard

None anticipated under product use conditions.

Synergistic Effects

No data available

Signs and Symptoms of Exposure

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated for the components contained within this kit.

Additional Information

Sensitization: Contains a small volume of a dilute, sensitizing preservative, Proclin 150. Though the potential for an allergic response is greatly reduced by the dilution, sensitization threshold is unknown; thus, handle accordingly.

Section 12 – Ecological Information

Ecotoxicity	No data available
Persistence / Degradability	No data available
Bioaccumulation	No data available
Mobility in Soil	No data available
PBT and vPvB Assessment	No data available

Other Adverse Effects

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Avoid release to the environment and municipal or industrial drains.

Section 13 – Disposal Considerations

Waste Disposal Instructions

Utilize appropriate personal protective equipment and spill control when handling wastes generated from using this kit. Do not discharge any of the solutions, reagents or controls into drains, water courses or onto the ground.

Disposal of Product and Contaminated Packaging

Dispose of waste materials, unused components and contaminated packaging in compliance with country, federal, state and local regulations. If unsure of the applicable regulatory requirements, contact a licensed professional waste disposal service to dispose of this material.

Section 14 – Transportation Information

- U.S. Department of Transportation (DOT): Not regulated**
- International Air Transportation (IATA): Not regulated**
- International Maritime Dangerous Goods (IMDG): Not regulated**

Section 15 – Regulatory Information

U.S. Federal Regulations

OSHA Hazards Sample Diluent, Detection Mix: Sensitizer

- SARA 302 The following chemicals are subject to reporting levels established by SARA Title III, Section 302:
No chemicals in this kit are subject to the reporting requirements of SARA Title III, Section 302.
- SARA 313 The following chemicals are subject to reporting levels established by SARA Title III, Section 313:
No chemicals in this kit are subject to the reporting requirements of SARA Title III, Section 313.
- SARA 311/312 The following chemicals are subject to reporting levels established by SARA Title III, Section 311/312:

Mixture: 5-Chloro-2-methyl-2, 3-dihydroisothiazol-3-one; 2-Methyl-2, 3-dihydroisothiazol-3-one	CAS#: 55965-84-9	Acute Health Hazard
--	------------------	---------------------

State Regulations

The following chemical(s) appear on one or more of the following state hazardous substances lists:

Chemical Name	CAS #	CA	MA	MN	NJ	PA	RI
Mixture: 5-Chloro-2-methyl-2, 3-dihydroisothiazol-3-one; 2-Methyl-2, 3-dihydroisothiazol-3-one	55965-84-9	No	No	No	Yes	Yes	No

California Prop 65: This kit does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

Additional Regulatory Information

Safety, Health and Environmental regulations specific for the mixture:

European Union – Regulation (EC) No. 1907/2006

Chemical Safety Assessment:

Not completed for components contained within this kit.

NFPA Kit Classification:

Health Hazard (blue): 1
Fire Hazard (red): 0
Reactivity Hazard (yellow): 0
Special Hazard (white): None
